Couples in Marriage Enrichment

Marriage nurturing events give couples a chance to enjoy quality time together with other couples.

Couples can take a look at their marriage, choose goals for their future, and learn skills by which marital growth can take place.

Topics include:

- Growing into our future
- Talking and listening
- Curing conflicts
- Taking a look at our goals

Sessions will offer a common framework for discussion. We'll learn by doing, and subjects are suggested for private reflection, couple discussion and limited group sharing.

"Heart to Heart" is designed for couples with good marriages. Couples who take part simply want to make their relationship even better. This event offers a supportive atmosphere for healthy marriages to become more fulfilling.

Comments from previous events:

"I loved this experience to just 'be' with my spouse, to talk, to connect. It was great. Thank."

"I would definitely recommend this event to others. Having time away with other couples to discover how our marriage relationship can grow has already strengthened us. We have discovered new ways to communicate and look forward to growing more."

"What a wonderful weekend rediscovering the joy of our marriage. Thanks!"
